Camp Descriptions

Manufacturing Camps – Students will tour local manufacturing companies to learn more about the skills and duties needed to work in manufacturing. Students will also participate in hands on activities to create a take home project to keep after camp. Skills include welding, engineering design, CNC lathe work and more.

Healthcare and Social Services – Students will meet with regional professionals currently working in the healthcare and social service industry. Students will participate in hands on demonstrations to increase their understanding of skills needed for these professions. Students will also receive CPR training. Skills include blood pressure reading, iv setup, safety protocols and more.

Hard Hat Edition – At this camp students will network with regional professional currently working in construction trades. Students will also complete hands-on activities that will increase their knowledge of skills used in this industry. Students will also participate in creating and building a community care project. Skills include, pipefitting, insulation, electrical and more.

Please contact Colleen Prechtl for more information at cprechtl@ncwdb.org or 814-594-0134
